

SERVO-CUTTER

Produced entirely in Germany

bellaform
the better solution

MACHINES AND EQUIPMENT
FOR PLASTIC PROCESSING

Equipment features:

- + Cutting guidance with quick-change system
- + Cutting guidance recognition takes place via encoded switches that are recessed in the guides. This assigns the right cutting guidance to the product from the product list.
- + Blade heating / blade cooling
- + Optional: Spraying the blade with coolant/lubricant
- + Scrap cutting: Production rejects are ejected either via a pneumatically switchable slide or at the end of the depositing belt.
